The Vancouver CGA Computer User Group has been established since 1985. During those years there have been tremendous changes in computer technology. When the group was first formed Microsoft was shipping Windows 1.0, Intel had just introduced the 16 MHz 80386 processor and IBM s new Personal System/2 computers had yet to be announced.

Over the years a small group of dedicated volunteers have worked hard to provide members of the Vancouver CGA Computer User Group with relevant, timely and convenient information on technology related topics. Our monthly meetings feature a guest speaker and provide an opportunity to network with other CGA members and students. The directors endeavor to arrange appropriate speakers and topics to qualify for up to 2 verifiable CPD hours for each meeting.

If you haven't attended a meeting before please consider doing so and find out first hand what has made the Vancouver CGA Computer User Group so successful.

Return your membership application and cheque to:
