Program Sequence- Program 98

Students admitted to the CGA program starting in 1998-1999

In order to help you plan the courses that are required in your program, here is a list of what you need to complete in order to obtain your designation. Put a check beside all the ones you have already completed or been granted credit for. The courses outstanding are the ones you still need to complete. Use the "Course Offerings" and "Prerequisites" tables in your Student Handbook to help you determine your course schedule for the upcoming year.

It is recommended, but not required, that students complete all lower level courses before taking courses in Level 4 and above. Courses do progress in terms of complexity and difficulty. **Prerequisites must be completed prior to enrolling in each course.** Before certification, students are required to satisfy the practical experience requirement and obtain a Bachelors degree.
